

## 1. Galgotias College of Pharmacy Signs MoU with Generix Lifesciences Pvt. Ltd.

On **April 9, 2024**, **Galgotias College of Pharmacy**, Greater Noida, entered into a Memorandum of Understanding (MoU) with **Generix Lifesciences Pvt. Ltd.**, Noida, to foster collaboration in skill development, research, and industry engagement.

The MoU focuses on:

1. **Promoting interaction** in emerging skills and technologies identified by both parties, aimed at enhancing internship and employment opportunities for students.
2. Facilitating **student placements for training** at Generix Lifesciences Pvt. Ltd. as per regulatory norms and mutual agreement.
3. **Conceptualizing and executing collaborative research projects** on a need basis.
4. **Organizing expert lectures** at the Galgotias campus to strengthen industry-academia knowledge exchange.

This partnership will provide students with valuable exposure to industry practices, encourage innovation through joint research, and bridge the gap between academic learning and professional requirements. Both institutions look forward to a productive collaboration that benefits students and contributes to the healthcare sector.

## 2. Galgotias College of Pharmacy Signs MoU with Bakson Homoeopathic Medical College & Multispeciality Hospital

On **14th May 2024**, **Galgotias College of Pharmacy**, Greater Noida, entered into a Memorandum of Understanding (MoU) with **Bakson Homoeopathic Medical College and Bakson Multispeciality Hospital**, Greater Noida, marking the beginning of a collaborative journey in education, research, and healthcare.

The primary objectives of this MoU are to:

1. Facilitate the **exchange of faculty and students** for the mutual benefit of both institutions.
2. Foster **collaborations in teaching, research, development, and studies of mutual interest**.
3. Enable the **exchange of academic materials and publications**.
4. Undertake **joint research projects** that contribute to advancements in healthcare.

This partnership aims to strengthen academic ties, promote interdisciplinary learning, and open avenues for impactful research. By combining the strengths of modern pharmaceutical sciences and homoeopathic healthcare, both institutions are committed to enriching educational experiences and contributing to community well-being.

### **3. Galgotias Educational Institutions Signs MoU with HBG Knowledge Services Pvt. Ltd.**

On **12th October 2023**, Galgotias Educational Institutions entered into a Memorandum of Understanding (MoU) with **HBG Knowledge Services Private Limited**, Gurugram, marking a new chapter of industry-academia collaboration.

The partnership focuses on:

1. **Promoting interaction** in emerging skills and technologies mutually identified by both parties, with the aim of increasing internship and employment opportunities for students.
2. **Conceptualizing collaborative research projects** based on need and mutual interest.
3. **Imparting expert lectures** at the Galgotias campus to enhance students' knowledge and industry readiness.

This collaboration is set to provide students with industry-relevant exposure, boost their employability, and encourage innovation through joint initiatives. Both institutions look forward to building a strong, future-focused relationship that benefits students, academia, and industry alike.
