

## **Report on Webinar on “Introduction to Patents & Self- automated Patent Drafting”**

The Applied Sciences Department of Galgotias College of Engineering and Technology organized a webinar on “Introduction to Patents & Self- automated Patent Drafting” on May 09, 2020. Patenting is important now days because it can help safeguard your invention, can protect any product, design or process that meets certain specifications according to its originality, practicality, suitability, and utility. Keeping in view of the same, Applied Sciences Department took a lead and invited Mr. Rajarshi Dasgupta, a Registered Patent and Trademark Attorney as Key speaker for explaining the process involved in the Patenting.

Dr. Rajesh Tripathi, Head of the Department convened the webinar in coordination with all the faculty members of the department.

About 200 faculty members, researchers and students attended the webinar in which they have gone through the WHY, WHEN and HOW of Patenting. E- Certificates were provided to all the participants of the webinar.

Following topics were discussed in easy and understandable terms:

1. Patents -Introduction and Why.
2. How to patent your idea, assignment projects and publications-first protect your idea and then do the technology.
3. Pateomatic-A self automated tool that enables to draft your patent applications yourself and the patent specification is sent to your inbox immediately.

The webinar was successful in not only getting the defined objectives but also in motivating the participants to go for patenting of their work.
