

National Science Day Celebration

Organized By

The Green Environment Club, Department of Applied Sciences, Galgotias College
of Engineering and Technology,
28th February, 2023

The Green Environment Club celebrated National Science Day on 28th February 2023 with great enthusiasm. The program was coordinated by Dr. Bipin Kumar Srivastava under the guidance of Dr. Rajesh Tripathi, Head of the Department of Applied Sciences.

Dr. Bipin Kumar Srivastava informed the audience that the theme for National Science Day 2023 has been kept “*Global Science for Global Welfare,*” which will be observed across the country. He highlighted that the theme reflects the need for collective global efforts, including India, to address emerging challenges. He also mentioned that National Science Day is celebrated every year on 28th February to commemorate the discovery of the Raman Effect.

Dr. Smriti Dwivedi shared her thoughts on the Raman Effect and its discovery. She further elaborated on its importance and its wide applications in the field of science.

Dr. Rajesh Tripathi, Head of the Department of Applied Sciences, mentioned that the number eight holds special significance in the life of C.V. Raman. He stated that National Science Day is celebrated to promote scientific awareness and to encourage interest in science among people. He highlighted the importance of scientific analysis and discovery for the progress of mankind. He also emphasised that faculty members from Physics, Chemistry, and Mathematics should collaborate to publish patents and research papers so that the name of the college and department reaches a global platform.

At the end, Dr. Rajeev Kishore delivered the vote of thanks and expressed his gratitude to the Head of the Department, members of the Green Environment Club, and all those present for making the program successful.
