About the speaker

Mr. Ajit Kumar is founder of Khushigram. He leads the social and green initiative platforms and works on advocacy and action with national and international institutions as well as groups and people across far flung villages.

Objective of the Event

- To understand the need of being aware about environment and take necessary steps to preserve it.
- Understanding the concept of sustainable development and learning from few examples on how this can be implemented.
- Realizing how Indian Culture and Science can work together to get perfect harmony in environment and effectively reducing carbon footprints.

Outcome of the Event

- The attendees acknowledged the importance of need to save environment and sustainable development.
- Students were encouraged to find sustainable alternatives for better future of earth and enlightened with the examples of country doing great in this field like Bhutan.
- Students understood the actual meaning of “The greatest threat to our planet is the belief that someone else will save it.” As it is the ignorance of people that is causing more harm to the environment hence environmental awareness is the need of hour.
