

Galgotias College of Engineering and Technology

Department of Information Technology

Python Programming Workshop

Date – 1-2nd February 2018 | Time – 9.30 am- 5:00 pm | Venue – Auditorium, Block D

Department of Information Technology and Fusion Club in association with SoftPro India Computer Technologies (P) Ltd. Organized Two day python programming workshop from 1st to 2nd February 2018.

The speaker Mr. Rohit started the workshop with basics and then led to a full web page development within 2 days with database support. Basics of HTML/CSS were also taught.

OBJECTIVE OF THE WORKSHOP

The objective of the Python Programming Language workshop is to help the students to get exposed to the latest technology Python Programming and its processes, which will in turn results in better employment opportunities for students and helps them to acquire better analytical as well as practical approach.

OUTCOMES OF THE WORKSHOP

After the workshop, students should be able to :

- Implement a given algorithm as a computer program (in Python)
- Explain what a given program (in Python) does
- Use library software for (e.g.) building a graphical user interface, web application, or mathematical software

This workshop turned out to be a huge success with approximate 150 students actively participating on both days wherein all students were also given certificates for their participation
