**ONE WEEK
FACULTY DEVELOPMENT PROGRAMME**
On

**"Recent Innovation and Novel Concepts
for Sustainable Development"**

15 -22, July 2024

About the Course: The Faculty Development Program (FDP) on "Recent Innovations and Novel Concepts for Sustainable Development" is a transformative initiative aimed at equipping educators with cutting-edge knowledge and practical skills essential for advancing sustainability in their academic and professional endeavors. This program covers a comprehensive array of topics, including renewable energy advancements, sustainable

agriculture practices, green technologies, and circular economy strategies. Through a blend of expert lectures, interactive sessions participants will gain a robust understanding of the latest innovations and methodologies driving sustainable development. By fostering collaboration and knowledge exchange, the FDP seeks to empower faculty members to integrate these concepts into their curricula, promote research in sustainability, and inspire their students to contribute to a sustainable future.

Galgotias College of Engineering And Technology

Shri. Suneel Galgotia, a steadfast visionary dedicated to offering world-class technical and managerial education, established the college under the Smt. Shakuntla Educational and Welfare Society aegis. Galgotias College of Engineering & Technology is approved by AICTE, Ministry of HRD, and Government of India and affiliated to Dr. A.P.J. Abdul Kalam Technical University, Lucknow. Galgotias College of Engineering & Technology, established in 2000, synergizes theoretical knowledge and practical skills to promote all round professional competence. Galgotias College of Engineering & Technology has acquired a unique status in UP, the NCR

region and the country by breaking new grounds in producing professionals of national and international acclaim and has been recognized as one of the top ranking institutions imparting high-quality education.

About the organizing Departments

The *Civil Engineering Department* at GCET is the best in Uttar Pradesh and is involved in education and research programs covering a spectrum of activities. With the growing demand for infrastructure and the diverse opportunities available in the field, a successful completion of a course in Civil Engineering offers a promising career path with ample opportunities for growth with the infrastructure equivalent to international levels and curriculum matching industry standards.

The *Department of Applied Sciences and Humanities* is a harbor between fundamental Science and Engineering that combines the knowledge of pure science with engineering practices. The department has been established to inculcate and promote an inquisitive thinking towards science and its applicability in various interdisciplinary subjects amongst young minds of today and tomorrow.
